

GT40

This GT40 was built up alongside the previous owner's original GT40 #1009 while 1009 was being restored by renowned GT40 expert Mark Allin at Rare Drive/Precision Auto Restorations in New Hampshire. It is an absolute tool room copy and has been issued with FIA HTP papers.

Since new the car has been race prepared by Simon Blake at Historic Automobiles and is fitted with a correct Mathwall 289 engine, since rebuilt by ICE, and a correct RBT ZF gearbox. There is a small spares package with the car.

As you can see from the results listed below the car has had a very successful competition history.

Spa 6 Hours:

2018 P5

2015 Winner

2014 P3

2013 P9

2012 leading with 15 mins remaining, gearbox failed
